

Game Warden's Role

The installation game warden, in his execution of fish and wildlife law enforcement duties, should be used to supplement the physical security program in remote areas of the installation. Game warden personnel have the ground mobile capability to enhance the security posture during daylight and darkness in areas normally inaccessible or off limits to "white-hat" patrols. This appendix outlines the areas of assistance in which security can be supplemented by game war-

H-1 Signs

a. Game warden personnel should detect and report sign damage and recommend sign posting at:

- (1) Installation boundaries
- (2) Off limits and restricted areas
- (3) Routine access areas by public personnel
- (4) Hunting and recreational areas.

b. Coordinating sign maintenance is a continuous process in support of the installation security posture.

H-2 Natural Disasters

a. Game wardens can be used in assessing damage from:

- ☐ Fire
- ☐ Flood
- ☐ Storm
- ☐ Wind.

b. The game warden can recommend, due to damage assessed, where to position security forces in support of area facility, and perimeter security to enhance the overall security posture.

H-3 Isolated Areas
