

Contents

Chapter 1. C-EMS Development	Page
Paragraph 1-1. Introduction	1-1
1-2. The Need for C-EMS	1-2
1-3. The Design of C-EMS	1-2
Chapter 2. Management Objectives	
Paragraph 2-1. Introduction	2-1
2-2. Management Policies	2-3
2-3. Standardization of Technical Parameters	2-3
2-4. Equipment Compatibility	2-4
2-5. Terminology	2-4
2-6. C-E Management	2-4
Chapter 3. The C-E System	
Paragraph 3-1. Introduction	3-1
3-2. Theater of Operations	3-2
3-3. Area Communications	3-3
3-4. Corps Communications System	3-5
3-5. Division Communications System	3-7
3-6. Brigade Communications System	3-8
Chapter 4. Management Structure	
Paragraph 4-1. Introduction	4-1
4-2. Theater and Theater Army C-E Management	4-2
4-3. Theater Communications Command (Army) (TCC(A))	4-3
4-4. Corps Level C-E Management	4-4
4-5. Division Level C-E Management	4-6
Chapter 5. C-E Planning	
Paragraph 5-1. Introduction	5-1
5-2. Relationship Between C-E Planning and Engineering	5-2
5-3. Preparation of C-E Estimates, Plans, and Orders	5-3
5-4. Procedures	5-5
5-5. Maintenance of Records	5-5
5-6. Assessment and Allocation of Resources	5-8
5-7. Responsibilities for Assessment and Allocation	5-9
5-8. Validation of User Requirements	5-9
5-9. Preferential Services	5-10
5-10. Issuing Technical Directives	5-11
5-11. Introduction of New Equipment	5-13
5-12. Radio Frequency Management	5-14
5-13. International Frequency Control	5-14
5-14. Frequency Management Channels	5-15
5-15. Theater Level Frequency Management	5-15
5-16. Theater Army Frequency Management	5-15
5-17. Corps Level Frequency Management	5-17

5-18. Division Level Frequency Management 5-18

5-19. The Automated CEOI 5-18

5-20. Contingency Planning 5-19

5-21. Recording User Locations 5-20

5-22. Security 5-20

5-23. Messenger Service 5-21

5-24. Directory Service 5-22

Chapter 6. C-E Systems Engineering

Paragraph 6-1. Introduction 6-1

6-2. Network Layout 6-2

6-3. Traffic Engineering 6-4

6-4. Traffic Engineering Responsibilities 6-7

6-5. Telephone Traffic Engineering 6-7

6-6. Teletypewriter/Data Traffic Engineering 6-8

6-7. The Circuit Routing List/Bulletin 6-11

6-8. Traffic Diagrams 6-11

6-9. Traffic Route Bulletin 6-15

6-10. Line Route Map 6-15

6-11. Multichannel Systems and Radio Net Diagrams 6-17

6-12. System Performance Analysis 6-22

6-13. Electronic Counter-Countermeasures (ECCM) 6-24

Chapter 7. Control Functions

Paragraph 7-1. Introduction 7-1

7-2. Communications System Control Element (CSCE) 7-1

7-3. Communications Nodal Control Element (CNCE) 7-2

7-4. C-E System Deactivation 7-7

Appendix A. References

Appendix B. Telephone Numbering System, Transmission System Designation and Circuit Identification

Paragraph B-1. Tactical Telephone Numbering Plan B-1

B-2. System Designation and Circuit Identification B-3

B-3. System Designators B-3

B-4. Circuit Designators B-6

B-5. Priorities for System and Circuit Restoral B-9

Appendix C. Special C-E Forms

Paragraph C-1. Introduction C-1

C-2. Communications System Information Summary C-2

C-3. C-E Trouble Record C-9

C-4. Operational Resources Record C-12

C-5. Traffic Status Record C-15

C-6. Special Communications Authorization Request C-18

C-7. Telecommunications Service Order C-20

C-8. Communications System Document Change Order C-24

C-9. Master Station Log C-26

C-10. System and Circuit Status Record C-28

C-11. System and Circuit Status Record, Card 2 C-32

C-12. Circuit Routing List C-34
